

The goal of our  
**Good Friday Experience**

was to allow persons of all ages to reflect meaningfully on the final days and hours of Jesus' life through prayer, interaction with family and friends and by tangibly engaging with the scriptural narrative through arts and crafts. Stations were scattered throughout our facility, including the lawn. We provided a light supper (come-and-go). The sanctuary was a designated quiet space to pull away from the activity. Guides provided assistance and interpretation at each of the stations.
